Summary

A leader with a demonstrated history of working in Data Science, Machine Learning, and Artificial Intelligence. I am skilled in solving problems with, Machine Learning, C, Python, SQL, Microsoft Azure, and Microsoft Power BI. I live by the mantra "ostinato rigore", which means that I apply relentless rigor to the practice of my craft. I am a valuable part of any team I am on and believe in the team rising together. If one portion of the team needs help with a task, I have no issue jumping in to assist on anything required. I am currently a Data Science student at Jomo Kenyatta University of Agriculture and Technology.

Experience

Freelance Data Scientist and Software Developer

Upwork

Nov 2021 - Present (9 months +)

I am on Upwork actively looking for jobs that can help me apply my skills so that I can achieve mastery. I take on Data Analytics, Web Scraping, Web Development, Python Scripting, Technical writing, and Virtual Assistance jobs.

Education

Jomo Kenyatta University of Agriculture and Technology

Bachelor of Science - BS, Data Science and Analytics

Sep 2021 - Dec 2025

I am currently pursuing a Bachelor of Data Science and Analytics. So far, I have taken the following core units:

- Mathematics for Sciences
- Computer Networks
- Fundamentals of Computers and Data Science using Python
- Computer Low Level Programming for Data Science
- Calculus for Data Science
- Statistics and Probability 1
- Object Oriented Programming 1
- Algebra for Data Science
- Database Management Systems
- Modern Operating Systems
- Web Application Development

365 Data Science

Udemy Complete Data Science Pro Bootcamp, Data Science

2021 - 2021

During this Data Science Bootcamp, I was introduced to Data Science as a multidisciplinary field and these are the topics that were covered during the training:

- Understanding of the data science field and the type of analysis carried out
- Mathematics
- Statistics
- Python
- Applying advanced statistical techniques in Python
- Data Visualization
- Machine Learning
- Deep Learning

WorldQuant University

Applied Data Science Module, Data Science

May 2022 - Aug 2022

Housing in Mexico Project

- I learned data wrangling and visualization skills while examining the real estate market in Mexico.
- I learned a whole lot about descriptive data science.

Holberton School

Certificate in Software Engineering, Computer Software Engineering

Mar 2022 - Mar 2023

The App Brewery

Udemy Complete Python Pro Bootcamp, Master Python Programming

2021 - 2021

The Complete Python Pro Bootcamp, a course I needed to learn to code with Python. This was without a doubt the most comprehensive Python course available anywhere online.

The course was taught by the lead instructor at the App Brewery, Dr. Angela Yu, London's best in-person programming Bootcamp.

This course didn't cut any corners, there were real-world projects which I got to build. e.g. Tinder auto swiper, Snake game, Blog Website, LinkedIn Auto Submit Job Application.

Alliance High School

High School Diploma, Mathematics; Computer studies; Biology; Physics; English; Swahili; History

2017 - 2020

Alliance High School (or AHS) popularly known as "Bush", was the first school in Kenya to offer secondary school education to Africans. It is widely regarded as the most prestigious high school in East Africa.

freeCodeCamp

Data Science

2021 - 2022

Data Analysis with Python Certification.

Scientific Computing with Python Certification.

Machine Learning with Python Certification.

Licenses & Certifications
